We know why. Because his editors, who have copyright and the trust with laziness to do that. They are busy selling it still in the Bengali language. They never thought of translating their books in English to share it with the world. And that's why you never heard of him. But don't worry anymore. As a fan of his books, it hurts to see that his creation is known only by Bengali readers. We always wonder why no one outside Bangladesh does not know him. Once we get the somel somel odnauq somitnes euq o atnis odnum o euq somereuq ,CLL tazanaM ,s3ÃN .odnum o moc seleuqa rahlitrapmoc e ohlabart ues o odot rizudart ed edadrebil a ramot somidiced books. Humayun Ahmed made us laugh, cry, think, think, And, more importantly, he made us love to read books. The details of each character, the plot and the flow of the story give you the meaning of you being within the story and you are observing what is happening in the vision of the translation skill we have, we will never be able to capture his writing tone. But we tried our best. I hope you enjoy this scientific fantasy book, as well as as not as usual. The proportion is not accepted no consent of Humayun ahmed or none of his members of his Famalia, because he is not more with us (trust in us, after starting to read his books, you too but will miss him). In addition, we don't feel any consent of the editors, because they are not good enough to present Humayun Ahmed to the world. Basically, we are doing their work. â € œA day of Kuddusâ € © a scientific fantasy tale at a rapid pace, this scientific fantasy tale at a rapid pace, the scientific fantasy tale at a rapid pace, the scientific fantasy tale at a rapid pace, the s child. This story is about the protagonist Kuddus. He is 52 years old. He made many jobs in his life. Now he works in a newspaper writing. He likes it because now he can read the newspaper writing. One day, a stranger arrived in Kuddus. This stranger came from a different planet. This stranger solved all Kuddus problems. Kuddus problem emit.seitisrevin dna egelloc fos subballvs eht delcni DNA ,dlrow eht eht eht tuora tuora sâ Dehsilbup erew of Fo skoob derdnuh owt nahtsud yrtsudi yrt ylraelc gnimoceb yllautneve, s0791 ylrae eht Dlrow dlrow 100+ Humayun Ahmed Other books Do you like this post? Share!! Something went wrong. Wait a moment and try again. My second daughter Shila was in class two or three. One day, when I looked at the home notes, my eyes were stuck in a place. I found that she wrote a totally phrase for the transfers. Is this a new game? I was scared when I looked at him more carefully and found his whole notebook was full of such things. Many phrases were written in opposite order. You can wipe them only in front of a mirror. The mothers told me that some information came to the time in the opposite order. It is known as dyslexia. Autistic children are so soma. This was the first time I came to know about autistic children or autism. After many years, I met another autistic child in Nuhas Polli. His parents came to visit the child. They let the boy play in the sleeve forest. He was going in a bad mood. € S times, he bowed to choose dull leaves and kept them in his pocket. I was amazed at what the boy was doing, and he advanced toward him. His father said politely, he is, please not. He gets scared when a stranger touches him. He has no other problem in addition to this. He is a brilliant student. He could not speak to the child to choose the dry leaves. I also did not have any intensities to write about it. He has been traveling from London to the scam. A trip of five or six hours. I can't just watch the scenes for hours so long, yet charming. I brought many books with me to read on the train. One of the books was from Karen Armstrong. It was her autobiography, the spiral stairs. In this book, the writer wrote about an autistic child. She was a love of such a child. The seed of the novel, â € ™ ™ speaks from the book by Karen Armstrong. I am not a kind of of writer, so I don't make a hugeresearch before writing. But I had to do this to write this book. The research was more fancil because of the internet. All information is at their fingertips. Just press the botan. â € œThe curious incident of the dog at night -by Mark Haddon also helped me a lot to write this book. I write 'that speaks' with deep pleasure. My life will be successful if I can share this pleasure with my readers. Humayun Ahmed? BEST -Sellers evaluations have made available to you a selection of the best.
